

THE ULTIMATE HOME RECORDING STUDIO SET-UP

ITEM #1

Slate Digital VMS Virtual Microphone System

How a microphone matches your voice is by far the most important part of recording vocals. With the VMS you get to instantly select from the world's best microphones so your voice sounds the best it can be. The big bonus is there is no need to buy fancy preamps or compressors, they are already built into the system!

[Click here for more information.](#)

ITEM #2

Kemper Profiler

This is the first guitar amp emulator that passed our critical demands for top-notch sound. We couldn't tell the difference between the amplifier and the Kemper. It provides hundreds of incredible sounding amps at your fingertips and you can even sample your own amps into the Kemper and then sell them to pay for it.

ITEM #3

Yamaha FG800 Acoustic Guitar

For a couple hundred dollars you can pick up an acoustic guitar that sounds as good as ones costing 10x as much. Enough said. [Click here for more information.](#)

ITEM #4

Casio Privia PX-350 Keyboard

Every studio should have a keyboard for piano and organ parts as well as triggering samples for drums, beats, and software instruments. To get the best of all worlds, a weighted or semi-weighted keyboard is the way to go. The Casio is one of the best values out there. [Click here for more information.](#)

ITEM #5

Sundown Sessions

Almost like a plugin for your home studio, Sundown Sessions' world-class session players and award-winning mixing and mastering are just a click away. Once you have sung and played your song, Sundown Sessions makes your music sound like the top artists, and stand up to anything you hear on the radio. Our philosophy is if you want to sound like the best, use who they use. [Click here for more information.](#)
